Wide model

High resolution. Widen your experience.

The 12.1 Inch WXGA widescreen display and enhanced specifications improve your system design.

* Note that GT2107 and GT2507 have the same external dimensions; however, GT2107 has no POWER LED on the front face.

**GOT Screen Design Software
MELSOFT GT Works3**

You can effectively use existing screen assets or design aesthetic screens with GT Works3, the software that can be commonly used for the GOT2000 Series.

- * Use GT Works3 Version 1.250L or later to design screens of GT2512 wide model.
- * Use GT Works3 Version 1.175H or later to design screens of GT2510 and GT2507 wide models.
- * Use GT Works3 Version 1.170C or later to design screens of GT2107 wide model.
- * For the details of GT Works3 functions, please refer to "GT Works3".
